Absorbents

**Fresh Super-Sorb Absorbent**

Turn liquids into solids for a much easier clean-up! The powerful Super-Sorb formula can absorb 60 times its weight immediately, and up to 400 times its weight within 2 minutes. Simply sprinkle a little Super-Sorb over a major spill or liquid mess, and watch as it absorbs for you to simply sweep away. Lemon fragrance. Quickly soaks up vomit, blood, urine and other spills on hard surfaces for a simple sweep up. Cleans and freshens. Cleans and absorbs spills while leaving a pleasant lemon fragrance that freshens the affected area. Environmentally Friendly, formulated with a biodegradable cellulose base so it's safe and cares for the environment.

SSC-F-22-BX 12 oz. Shaker Can 6/cs

Urinal Blocks & Screens

Fresh Eco Bowl-Clips

Unseen and secure - in the Ladies Restroom, the seat goes down and stays down, locking in the Eco Clip and eliminating odors for 30 days. Unique patent pending material contains 20x more fragrance than standard rimsticks. Gradually releases air freshener over 30 days. VOC compliant. 100% recyclable. Will not dissolve in, or pollute water. Easy to use. Fits on the outside of most standard toilet bowls, clips on the side of a toilet tank or even on a bathroom partition. Shrinks to fit as fragrance evaporates. Versatile - used in many toilet and non-toilet areas to combat odors.

EBC-F-06-BX Light Blue Cotton Blossom 12/cs

Fresh Wave 3D Urinal Screens

30-day urinal screen. It contains 3-5 times more fragrance than competitors. The patented two-sided design eliminates 98% of urine splash on both sides for error-free installation. Crafted for convenience, simply place the Wave 3D over the drain in the urinal and you're done. Each screen has date tabs for replacement reminders and contain beneficial bacteria that consume odors and keep drains clean, clear, and smelling fresh.

**Dart® PresentaBowl™ Clear OPS Combo-Paks**

Dome lid provides ample room for high-mounded food items. Leak-Resistant perimeter seal prevents leaks from wet foods such as salad dressings and sauces. Unique Crystal-Cut design provides an upscale appearance and increases sidewall strength. Registered stacking platform provides greater stacking stability ideal for merchandising displays, and reduces falls and spills.

C24BCD	24 oz.	2/63/cs
C32BCD	32 oz.	2/63/cs

**Dart® Safe Seal® Bowls w/Flat Lids**

MicroTrim™ Edge contributes to tamper resistance by inhibiting the ability to lift up the lid from the base without tearing the hinge. TamperAlert™ hinge protrudes outward when torn, alerting the customer that the container has been opened. Hinge remains attached to the container, no loose pieces, no littering. 360° leak resistant perimeter seal. Recessed stacking platform. Offset opening tabs makes bowls easier to open. Subtle sidewall ribbing. Crystal clear container.

Dart® Foam Hinged Lid Containers

Hinged containers available non-perforated or with the PERFormer™ perforated hinge that allows the container's lid to be removed. Stackable. Secure closure. Has high insulation properties to keep hot food hot and cold foods cold. The vented container comes with the PERFormer™ perforated hinge. Vent holes on sidewalls of the lid preserve food quality (i.e. crispiness) by allowing steam to escape. These containers feature either a double lock closure or a "knuckle" locking tab intended to prevent accidental openings. When closed, a perimeter seal keeps food secure, reducing leaks. Tabs on base ensure container stay closed when picked up by the lid. Also available in black.

Molded Fiber / Container

Bare® by Solo® Eco-Forward® Bagasse Hinged Containers

(Sugarcane) Eco-Forward® with an upscale quality in an ivory color. Excellent rigidity and soak-through resistance that will stand up to the rigor of heavy and saucy foods.

The lock tab design ensures easy, secure closure in one motion for operator ease. These hinged containers also feature a nesting design for secure stacking.

Compostable in a commercial compost facility which may not exist in your community. Not suitable for backyard composting. Meets the ASTM standard D6868 for compostability by the Biodegradable Products Institute (BPI). Made with at least 99% plant-based renewable resources.

HC9SC-2050 9" 2/100/cs

Empress™ Earth Molded Fiber Hinged Containers

Empress Earth Bagasse products are pressed in a high-heat, high-pressure process. They are 100% compostable, heat tolerant and can be put in the microwave or the freezer. At Empress Products, we understand the need for compostable products made from environmentally friendly raw resources.

Genpak® Harvest® Fiber Hinged Containers

These products are all natural and made from annually renewable resources. The ribbed base design separates excess liquids to maintain airflow throughout the container. Trimmed with robust stacking rims to prevent unwanted sliding and collapsing during transport.

Excellent grease, oil and water resistance. Microwave safe. Meets the ASTM standard D6868 for compostability. GMO free. Compostable in an industrial compost facility.

**Dart® Impulse® LX® Foam Cups**

Customers shouldn't need to rely on "double cupping" their paper hot cups to avoid burning their fingers. Dart's Café G® stock printed foam cups keep hot beverages hot and cold beverages cold while remaining comfortable to the touch. Because this premium line of insulated ThermoGlaze® cups keeps beverages at their proper serving temperature, coffee will taste fresher longer than when it's served in a paper cup. The Café G coffee-themed design incorporates a subtle color coding system to help customers and employees identify the correct cup size.

Paper Cold Drink Cups**Bare® by Solo® Eco-Forward® Wax Coated Paper Cups**

Meets the ASTM standard D6868 for commercial compostability and are Cedar Grove compost facility accepted. Made with plant-based renewable resources, this Eco-Forward® paper beverage solution does not contribute to landfill volume when composted in a commercial composting facility. Offers superior rigidity, making them ideal for cold, icy drinks and thicker beverage creations such as milkshakes and smoothies. Compostable in a commercial compost facility. Appropriate commercial composting facilities may not exist in your community. Not suitable for backyard composting.

Low Density

**Pitt Plastics Curb Side Receptacle Liners**

Linear Low liners are highly puncture and tear resistant. These properties make this the best choice for applications where additional strength and stretch are required. Works well for waste with sharp or jagged edges. With a wide variety of colors, strengths and sizes, you are sure to find the liner you need. Perfect for food service. The materials used in the manufacture of these liners are USDA and FDA approved for food storage. Max load: 100.

Low Density Roll

**Inteplast Draw-Tuff®
Foodservice/Hospitality Liner**

Drawtape can liners available in black or natural. Super strong liners are manufactured from 100% LLDPE premium resins. Environmentally safe for incineration. No need to know liner, bag will fit container. Capacity: 23 Gallons; Perfect Fit.

DTS2838K 28.5 x 38 Black 6/25/cs

**Inteplast LLDPE Institutional Trash Can Liners**

Recommended for sharper objects under rough transport conditions. Excellent resistance to punctures and tearing. Prime resins used for superior quality. Compact coreless interleaved rolls for effortless bag dispensing. Star seal bottom.

WSL2432XHW 24 x 32 White 0.50 mil 10/50/cs

**NOVA® Co-Ex/2-Ply Coreless Can Liners**

Two layer film strength. This quality adds significant strength and toughness (dart strength) to the liner and makes zippering (straight-line tear) obsolete.

Multi-Directional Film Barrier. Two layers of film complement one another in a way that adds significant strength to the can liner. One layer of film is applied vertically and the other horizontally. The end result is the same as using two can liners for the price of one. This technique is used to hide any flaws that is typical of reprocessed material and allows the user to cut costs by using a thinner material without giving up strength. Nova uses recycled material which comes with an SCS certified label on every case that meets LEEDS certification.

Strongman Coreless Roll Can Liners

Made with a combination of LLDPE and LD resins.

LLDPE has a high tensile strength and high impact and puncture resistance. It is very flexible and will elongate under stress. This provides the extra strength, elasticity and performance at lower mil weights. LLDPE also has a good resistance to chemicals; they will perform well in temperature extremes and confine odors. LD is the most common plastic used to make can liners, as it is rather soft and flexible. By blending it with LLDPE, the strength increases without losing the thinner mil weights and flexibility. Has a star-seal bottom. Perforated coreless roll.
